Dakabin Excellence in Sporting Endeavours Award Nomination Form

Dakabin State High School would like the opportunity to acknowledge the sporting achievements of students that they have achieved in various sports **outside of the Queensland School Sport system**. The QLD School Sport system involves a Pine Rivers district trial, followed by a Met North regional trial and then a State Championships and/or National Championships if students are successful in their selection.

We are asking for nominations for students who have excelled in sports outside of the school sport pathway and have competed, refereed or umpired at a State, National or International championships that is **recognised and endorsed by the organising body of that sport**. For example, a student being selected from their club hockey team in a Brisbane representative team by the Brisbane Hockey Association, who then competes at the Queensland Hockey Championships. This then results in the child being selected for the Queensland Hockey team by Hockey Queensland selectors to compete at the National tournament. We also encourage student officials who have excelled in their area to nominate for this award. This would relate to refereeing or umpiring at a State, National and/or International level.

Students will need to provide evidence of their selection & participation in these State, National & International championships as a means to verify the award. Evidence that can be provided to verify this is listed on the back of this form and needs to be handed in with this nomination form.
