Full and Part-Time Enrolments August 2012

NAPLAN Year 3 Mean Scale Score - Indigenous/Non-Indigenous Gap

Apparent Retention Year 10 to Year 12 - Indigenous/Non-Indigenous Gap

Student Attendance Rate Semester 1, Years 2008-2012

Proportion of Students by Attendance Range Semester 1, 2012 - Indigenous & Non-Indigenous Students

Apparent retention rates are computed as the ratio of the number of year 12 full-time students in a given year to the number of year 10 full-time students 2 years prior. The retention rates are labelled "apparent" as they do not take account events such as interstate or overseas migration, repeating students, return of adult students and the movement of students to and from the state sector. For these reasons it is possible to obtain apparent retention rates greater than 100%. Based on Census enrolment collection.
